H3: Descriptive dispersion across the three fitted corpus rates
Joint beta-binomial; zero child deviations
Early age: 27.30 months
P(child SD < CDS SD) = 0.525
Mean age: 32.50 months
P(child SD < CDS SD) = 0.742
Late age: 37.70 months
P(child SD < CDS SD) = 0.866
